

# CHALK PAINT

## What you will need:

Corn Flour  
Water  
Food colouring  
Cups  
Spoons

Mix together the corn flour, food colouring and water to create a watery paste (not too runny)

Now you are ready to use:  
you can pour this onto concrete or use a spoon to create fun drawings

I created this Poppy in remembrance of Anzac Day

You could make one outside your house and when people walk past they will see it and remember Anzac Day.
